

Profile

"Viktoria is dedicated and structured, when she works, with a sharp sense for what works and doesn't work visually. Viktoria is super great with humans and in her creative work it is clear to see that she thinks of the target group and the recipient by the designs she delivered. Besides that, Viktoria is a super nice human being – always with a twinkle in the eye and smile on the face. A teamplayer who was socially well-liked by the whole team."

Rasmus Bjørn Aagaard – CEO & Partner in Twentyfour
